# Win **£20,000 CASH** when you replace your glass!

We're celebrating 20 years of excellence – and you could win **£20,000** in our Anniversary competition! To enter, simply spend **£500** or more with us between now and the end of August 2026.

For over 20 years, Cloudy2Clear, a trusted family-run business, has been the UK's leading domestic glass replacement specialists, serving as your One-Stop Shop for all your glazing requirements – and now we're marking this milestone with an exciting competition where one lucky customer will win £20,000! We take pride in generating our own leads, crafting tailored quotes, and manufacturing our own glass using only the highest-quality materials to ensure exceptional results. Unlike competitors, we never use subcontractors – our team consists entirely of skilled, in-house professionals, guaranteeing consistent quality and reliability. Every glass unit we fit comes with a 25-year guarantee, complemented by comprehensive after-sales care, providing you with lasting peace of mind.

Why opt for costly full window frame replacements that lead to unnecessary redecoration expenses? By replacing

only the failed glass unit, we save you money and minimise disruption – perfect for qualifying for our £20,000 prize draw while upgrading your home. Join over 344,000 satisfied customers who trust our ethical, affordable service. Failed double glazing can compromise your home's protection and energy efficiency, so check your windows today to avoid future costs.

Since 2005, Cloudy2Clear has been committed to saving customers money while supporting local communities. Manager Peter Brummitt explains, "Our focus is on replacing just the glass, not the entire window, which reduces costs and upheaval. As a One-Stop Shop, we manage everything – from lead generation to crafting premium glass with a 25-year guarantee and dedicated after-sales support – making us the smart, cost-effective choice in any economy."

**For a free quote (and your chance to enter the competition), call 0800 61 21 118 or visit [www.cloudy2clear.co.uk](http://www.cloudy2clear.co.uk) today!**

## THE SOLUTIONS ON DEMAND GROUP

The Solutions on Demand Group is a dynamic and ambitious business entity dedicated to supporting growth-oriented companies in website development, managed IT support services, telecoms, digital innovation (AI), brand development, video production & animation, print and advertising solutions.

From our home in Ayrshire and offices in Glasgow and London, the Group has experienced significant growth in recent years, partnering with multinational organisations and receiving recognition from some of the most respected industry bodies.

This momentum culminated in our ROCCO Award win at the end of 2025. The award recognised the Group's development of Geco, a transformative digital platform designed specifically for the care and education sector.

## An Award-Winning Platform

The Solutions on Demand Group were honoured to be awarded the ROCCO Award for Innovation & Technology 2025.

The award recognised our AI-powered digital reporting platform developed in collaboration with the University of Strathclyde and Innovate UK KTP. Designed to support residential care and education services, the platform aligns with Scotland's GIRFEC and SHANARRI frameworks, helping professionals evidence and improve wellbeing outcomes for children and young people.

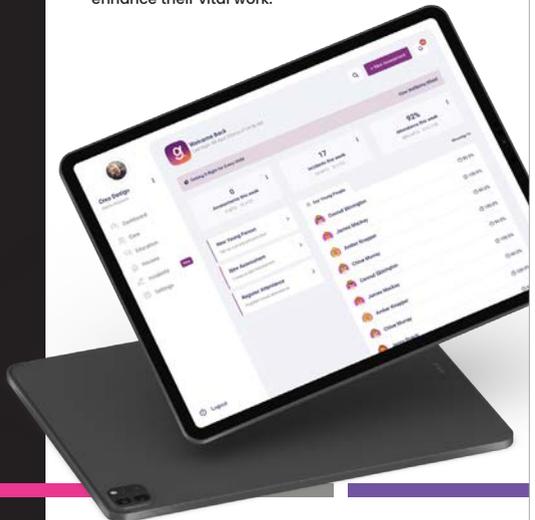

Across Scotland, thousands of residential care professionals face the daily struggle of juggling their job of supporting vulnerable young people with complicated and time-consuming administrative tasks.

The Solutions on Demand Group set out to solve this with Geco Connect. The platform uses AI-powered technology to support staff processes by organising information, aligning it with Scotland's wellbeing frameworks and transforming scattered notes into actionable insight.

Geco Connect is expanding across Scotland's residential care sector and the core mission remains unchanged: ensuring every young person's journey is visible, understood and supported while giving professionals tools that enhance their vital work.
